

# *Social Connections of Southern NH*

Social Connections is a group of young adults (age 18+) with Autism and other related conditions, who meet up a few times each month to have fun!

Social Connections provides a social community, and opportunities to access community resources and events with others who share similar interests.

Typical events have included: movie nights, bowling, mini golf, board game nights, laser tag, and hiking, along with some seasonal events such as pumpkin carving and swimming.

**For more information or to be added to our group's email distribution list, please contact:**

## **The Details...**

**Social Connections events take place in the Salem-Windham-Atkinson-Derry-Londonderry area.**

**Social Connections activities are typically planned for the 2nd and 4th Thursday of each month in the range of 6-8:30pm. Days and times may vary based on the event.**

**Social Connections is not a supervised group. Members need to be age 18 or older. Individuals who attend Social Connections events alone should have the ability to manage their own money and be able to safely participate in the activity planned.**

**Social Connections communicates information about events through email. To join an event, all that's needed is to RSVP to the email about the event so we have a head count, and show up at the event location.**
